## Significant Events and/or Alarms

- I am pleased to report that all eight of the academy students have successfully passed their Michigan Fire Fighter Training Council Fire Fighter I & II practical exams, and only one person has failed the written test. This person has re-test dates scheduled this month. Re-test opportunities are limited to within two years (April 23, 2018). These probationary employees will now be obligated to complete the SFD Field Training Program (FTP) with a mentor and will soon have their probationary status eliminated from their title. Not surprising, this crew has already started the process.
- In addition to the aforementioned, four of these recent graduates (Grutter, Ingerson, Schievink, Zachow) along with two new employees (Nielsen, Taylor) will be attending a ten week Michigan First Responder Course at the City of Walker FD to obtain the MFR license starting May 9, 2016. This class will be meeting two nights a week from 6P- 10 P.
- Academy graduates Cornell and Spencer are anticipating enrolling in a possible daytime MFR course this summer.
- The recommendation for Lt. Paige to fill the Deputy Chief vacancy has been submitted to the Board for consideration at the May 10 meeting.
- On April 16, 2016 SFD failed to meet the response timelines for a medical emergency and the call was transferred to Sand Lake FD (SLFD). However, immediately upon being transferred to SLFD, SFD responded to the alarm and SLFD was cancelled. Technically, this would be classified as a "turfed" call and I have indicated in the table above. However, SFD did respond and mitigated the emergency.
- On April 18, 2016 SFD was dispatched to a RV camper fire next to the garage @ 1528 hours. The fire quickly spread to the adjacent garage while SFD units were en route. SFD requested a second alarm from the dispatch center that quickly assigned an Engine from Sand Lake and Cedar Springs, and a Tender each from Kent City and Algoma. The RV was a total loss and the attached garage and residential structure suffered heavy loss to the siding and roofing materials.
